Carrer del Rec 61

08003, Barcelona

+34 656 594 296

Experience

Oakwood Creative Digital Agency

Front-end developer

2015 - Present

Front-end lead in several projects working with technologies like React, Redux, Webpack, JavaScript ES6, and WordPress.

Apsis

Junior front-end developer

2014 - 2015

At Apsis I specialized in component driven development with AngularJS, utilizing tools and techniques such as JSPM, Stylus, SVG, Atomic design, modern naming conventions (OOCSS, BEM and SUIT CSS) and Gulp.

Demokratiappen

Interaction Designer

2013 - 2014

Primary responsibilities included User Interface Design for the iOS-application utilizing Photoshop, Balsamiq and Xcode. I also worked with website development using the content management system WordPress along with HTML, CSS and JavaScript.

Commons Machinery

UX Designer

2013 - 2014

Bachelor's thesis in interaction design. I worked with UX Design methods such as user testing and wireframing for Commons Machinery's products and designed an associated web service prototype using responsive web design techniques.
